01 — ABOUT US

Who We Are

Valtrix Trade Studio Inc. is a Toronto-based paper trading company with over two decades of expertise in sourcing, importing, and distributing high-performance paper and packaging materials across North America. Founded on a deep commitment to quality, partnership, and sustainability, we have grown into a trusted bridge between world-class global manufacturers and the North American marketplace.

We proudly serve as the **exclusive North American representatives** for leading Turkish manufacturers, delivering premium paper substrates, specialty packaging

films, and certified sustainable materials to buyers, distributors, and end-users across Canada and the United States.

Our business model is built on an unwavering belief that responsible trade and sustainable materials are not mutually exclusive — they are the future. At Valtrix, we make that future accessible today.

"Our business is built on three pillars: quality, sustainability, and reliable trade partnerships."

— Valtrix Trade Studio Inc., Toronto, Canada

02 — SERVICES

What We Do

Valtrix Trade Studio Inc. delivers end-to-end paper trading and packaging distribution services, serving clients across food production, pharmaceuticals, industrial manufacturing, and retail packaging. Our three core service lines are designed to address every stage of the supply chain — from sourcing and compliance to delivery and partnership development.

I. Paper Trading

Sourcing and distributing specialty papers, flexible packaging substrates, extrusion-coated papers, and industrial packaging materials to North American buyers. We manage supplier relationships, quality assurance, and volume procurement on behalf of our clients.

II. Sustainable Packaging

Representing and distributing certified home-compostable, biodegradable, and recyclable packaging solutions for food, pharmaceutical, and industrial applications. Our sustainable lines carry internationally recognized environmental certifications.

III. Import & Export Trade

Managing end-to-end import/export logistics, customs compliance, and supply chain coordination between Turkish manufacturers and North American clients. We eliminate friction and reduce lead times for our partners.

03 — PARTNERS

Exclusive North American Representatives

Our exclusive partnerships place Valtrix at the forefront of premium paper and sustainable packaging distribution across North America. We work directly with world-class Turkish manufacturers — representing their products, standards, and innovations to Canadian and American markets with full commitment and expertise.

METPACK

Specialists in Extrusion Coating | Turkey | www.metpack.com

METPACK is a leading Turkish manufacturer specialising in extrusion-coated paper and flexible packaging substrates. As Valtrix's flagship manufacturing partner, METPACK delivers technically advanced, high-performance materials engineered for demanding food, medical, and industrial packaging applications.

METPACK EZYPACK

A premium multi-layer extrusion-coated paper available in Paper/PE, Paper/PP, and Paper/PE/Aluminum structures. Engineered for excellent heat-sealing performance with

outstanding moisture and grease resistance. Ideal for:

- Sugar, spices, and dry food packaging
- Medical and pharmaceutical packaging
- Industrial and specialty applications

METPACK EZYCOMPOST FLEX

A breakthrough home-compostable paper packaging material representing the future of sustainable flexible packaging. Key attributes include:

- Fully decomposes in backyard compost within **12 weeks**
- Recyclable in standard paper mills per **CEPI & 4evergreen** guidelines
- Zero persistent microplastics — **PFAS free**
- Certified up to **334 gsm**
- Suitable for food, pharmaceutical, and retail applications

FIBRA

Recycled Paperboard & Circular Economy Solutions | Nazilli, Turkey

Based in Nazilli, Turkey, FIBRA is a specialist manufacturer of recycled paperboard products and circular economy packaging solutions. FIBRA's commitment to closed-loop manufacturing aligns perfectly with Valtrix's sustainability mission, providing our North American clients with high-quality recycled board materials that meet the rigorous environmental and performance standards of today's market.

Sustainability at the Core

At Valtrix Trade Studio Inc., sustainability is not a marketing position — it is the foundation of every product we represent, every partnership we develop, and every shipment we coordinate. We are committed to building a supply chain that future generations can be proud of.

World-class paper manufacturing with a commitment to sustainable production practices.

FSC-Certified Sources All paper substrates sourced from FSC and PEFC certified forests, ensuring responsible forestry practices and the protection of biodiversity across global supply chains.	Closed-Loop Recycling Our packaging products are engineered for end-of-life recyclability — fully compatible with standard paper mill recycling streams in line with CEPI & 4evergreen guidelines.
Solar-Powered Production Our manufacturing partners operate with renewable energy commitments, significantly reducing the carbon footprint across the entire supply chain from production to delivery.	Biodegradable & Compostable Our EzyCompost line decomposes fully within 12 weeks in home compost conditions. Zero microplastics. Completely PFAS free. Setting a new benchmark for responsible flexible packaging.

Our Sustainability Commitment

Every product in the Valtrix portfolio is selected based not only on its technical performance, but also on its environmental credentials. We work exclusively with manufacturers who share our vision: that premium performance and responsible production must go hand in hand.

05 — CERTIFICATIONS & STANDARDS

Certifications & Standards

Our products carry internationally recognised certifications that validate their environmental performance, food safety, and material integrity. These credentials are essential for buyers operating in regulated markets across North America, Europe, and globally.

Certification / Standard	Issuing Body / Description	Application
TÜV Austria — OK Compost HOME	TÜV Austria, Austria	Verifies home compostability under real-world conditions — decomposes within 12 weeks
BPI Compostable Certified	Biodegradable Products Institute (Cert. #10530164)	Recognised North American standard for compostable packaging materials
FSC Certified	Forest Stewardship Council	Responsible forest management and chain-of-custody verification
PEFC Certified	Programme for the Endorsement of Forest Certification	Sustainable forestry sourcing confirmation
PFAS Free	Independent Laboratory Verified	Zero per- and polyfluoroalkyl substances — safe for food and environment
PTS Fibre Based Solutions	PTS — Papiertechnische Stiftung, Germany	Paper and fibre-based packaging testing and compliance standard
Food Contact Approved	European Union & United States Regulatory Standards	Safe for direct and indirect food contact in EU and US markets
Bio-Mass Balanced Options	Renewable Material Sourcing	Bio-mass balanced variants available to further reduce fossil resource dependency

06 — WHY VALTRIX

Why Partner with Valtrix Trade Studio Inc.

In a competitive global marketplace, choosing the right trade partner defines your supply chain's reliability, your product quality, and your sustainability credentials. Valtrix Trade Studio Inc. offers a rare combination of deep industry knowledge,

exclusive manufacturer access, and a genuinely partnership-driven approach to business.

- **Exclusive North American access** to premium Turkish paper and packaging manufacturers — products unavailable through any other North American distributor
- **20+ years of global paper trade expertise** — deep knowledge of markets, materials, pricing, and international logistics
- **Full import/export trade management** — end-to-end coordination including customs compliance, logistics, and supply chain oversight
- **Certified sustainable and compostable product lines** — TÜV Austria, BPI, FSC, and PFAS-free credentials for regulated markets
- **Responsive, relationship-driven service** from our Toronto headquarters — direct access to decision-makers, no bureaucratic delays
- **Broad application suitability** — products qualified for food, pharmaceutical, medical, and industrial packaging applications
- **Forward-thinking sustainability alignment** — helping partners meet ESG targets, circular economy goals, and growing consumer demand for responsible packaging

"We don't just supply paper — we supply partnership, expertise, and a path toward a more sustainable supply chain."

— Valtrix Trade Studio Inc.
